Pune

SUMMARY:

Front-End Developer with 2 years of experience in creating dynamic and visually appealing web applications using HTML, CSS, JavaScript, and React.js. Adept at building responsive and interactive user interfaces, optimizing performance, and delivering cross-platform solutions.

WORK EXPERIENCE:

• Software Engineer

Zensar Technologies, Pune, India

Sept 2022 - Present

- Developed a MERN stack-based application for interview panel management, implementing role-based user interfaces with React.js to enhance user experiences for admins, users, and TA personnel.
- Contributed to internal tools development, addressing JavaScript-related bugs and ensuring smooth project execution.
- Implement T1 test cases using Karma, Sinon, and Chai. Gained familiarity with Azure build pipelines and YAML configuration while performing code quality checks using SonarQube.

PROJECT:

• Brick-Breaker Game (November 2022 - Present)

- Engineered a cross-platform Brick Breaker game using vanilla JavaScript, HTML5, and CSS3.
- Focused on creating a responsive design that adapts seamlessly to both desktop and mobile devices.
- Integrated intuitive keyboard controls for desktop and touch controls for mobile users, ensuring an engaging user experience.

• Netflix Clone

- Developed a Netflix clone leveraging React.js for the frontend and Firebase for backend services. Implemented external movie APIs to dynamically populate the content library.
- Prioritized component reusability and state management, demonstrating expertise in React's core principles.

EDUCATION:

Bachelor of Engineering in Computer Engineering

July 2018 - July 2022

Vishwakarma Institute of Information Technology

High School Diploma, Science

June 2016 - April 2018

Z.P Agarkar Kanishtha Mahavidyalaya

SKILLS:

- **Languages:** JavaScript, HTML5, CSS3, C, C++
- **Frameworks/Libraries:** React.js, Sinon, Jasmine, Karma
- **Tools & Platforms:** Git, NPM, VS Code, Chrome DevTools
- **Design & Styling:** Responsive Web Design, Flexbox, CSS Grid
- **Other:** RESTful APIs, Cross-Browser Compatibility

Hackathon Participation:

• Myntra Hacker-Ramp weForShe Hackathon

Conceptualized and presented an AI-driven feature for the Myntra app to enhance user engagement. Proposed cutting-edge enhancements including virtual trial rooms and personalized runway experiences using AR/VR technology. Gained hands-on experience in integrating advanced technologies into existing platforms to improve user interaction.
